

ANHYDROUS AMMONIA

Certified Grower Training

All growers or grower farm operators who transport or apply anhydrous ammonia, or otherwise maintain anhydrous ammonia equipment, shall be certified to understand:

- Properties of ammonia
- Competent in safe operating practices
- How to take appropriate actions in the event of a leak or emergency
- Personal protective equipment & first aid
- Transportation safety

Growers and grower farm operators have until April 1, 2022 to be initially certified, and must participate in refresher training every three years.
